EHS
Africa Focused with Global Strength

History / Introduction

Established in 2001 in Paris, France, EHS commenced business providing intercontinental transport and delivery services by air to West & Central Africa to Express Integrators such as UPS,TNT, Fedex, Aramex. Our role at that time was to ensure the safe transport and delivery of our client's goods in West & Central Africa on an express basis. We were a provider of expertise in Africa to the Express Industry.

Today, still headquartered in Paris, France, EHS has transformed into a company with owned offices across West & Central Africa and a **Worldwide Network of partners**, providing International Transport & Logistics solutions by air and sea to direct clients who are African based.

Our clients benefit from our experience and expertise in West & Central Africa, where we offer the ability to transport goods from anywhere in the world to West & Central Africa & from West & Central Africa to anywhere in the world, by sea and air.

Our focus is on giving a solution that our client's want and not what suits us.
We listen, We analyse, We propose, We comit, We action, We satisfy.

Our brochure is merely to give you an introduction to EHS and display a simple guide to some of the services we provide. Our scope of activity far outreaches what you will find in our brochure.

If you have a logistics problem, if it's **Africa** related, discuss it with us.

We look forward to serving you.

Africa Focused with Global Strength

EHS

Sectors

We are proud to be providing services to clients active in the following industry sectors:

Mining Services

Our Mining services clients demand consistent performance and innovative solutions. We continue to meet there needs .Communicating at every step.

Mining & Mining Infrastructure

Ensuring the accurate customs clearance and meeting all local regulations provide assurance for our clients in this sector that we are in full control. Communicating at every step.

Oil & Gas

EHS is now creating a dedicated Oil & Gas Team, experienced in this sector. We look forward to serving our clients soon.

Industrial Goods

Organizing police escorts, out of gauge transport for projects, are just a few elements we offer to our clients in this sector. Keen to ensure the secure arrival of Industrial materials from Storage Tanks to Hydro Power equipment.

Relief Agencies & NGO Logistics Support

During the Ebola Crisis, our Liberia & Sierra Leone offices have been heavily involved in the logistics support for such clients as MSF, ECOWAS.

EHS

Impex import service

EHS wishes to revolutionise the way our African importer clients organize the import of their goods. With your imports under our control from time of ordering, EHS will save you time, money and energy, thus freeing you to focus on developing your local business activity.

- Are you a regular importer of goods from abroad?
- **Do you want to reduce the cost of transporting your goods from supplier to you and improve transit time?**
- Do you want to exercise greater control of your goods?
- **Do you prefer to pay for your international transport in your local currency and avoid bank charges?**

EHS IMPEX, puts you in control, saves you money. Here is how it works

- You order
- We coordinate with supplier
- We organize collection from supplier
- We transport from supplier to your port or airport or anywhere you instruct us to
- We can customs clear and also deliver once arrived at the port or airport
- You settle payment to our local office

Customs Clearance

With port and airport operations, our customs clearance capability is built on:

- Assuring correct documentation before arrival
- Swift processing through customs procedures upon arrival
- Swift duty and tax payment upon assessment
- Swift recovery of goods once customs clearance has been made

Do you know how much money you can loose just by your customs agent using incorrect customs codes ?

EHS clients can do business confidently knowing the correct customs codes and licenses are applied every time.

EHS

Airfreight services

Our **strong airline relationships** both locally and globally enable us to provide swift and secure transport by air of our client's goods.

Sea freight services

Transporting your goods by sea is a cost effective way of doing so.
How can EHS support you in meeting your needs in this area?

Lower cost

Faster transit times

More reactivity

Consistent communication

We will work with you and for you to attain your goals in this area.

LCL service

What is LCL? If you have goods that you wish to export by sea , but the volume does not fill a full container, then there is nothing to worry about. With our LCL service, **we can ship any volume of cargo which is less than a full container**. You will only pay for the actual volume of your cargo and not for a full container.

Note: subject to country restrictions

EHS

Insurance

Insuring your goods during the transportation process gives that added security and peace of mind. EHS will be happy to provide you **added Insurance cover on a case by case basis**.

Bio pharma services

Through our European HQ, we service the Bio Pharma and Clinical Trial Sector. **Transport of UN3373 and UN1845 i**s a regular occurrence within our network. We can supply the necessary packaging and conditioning (Dry Ice, LN2 Containers,...).

National logistics services

Talk to us about your **local and national transport needs**. You may be surprised with the alternative solutions we could propose. Our aim is to improve the service levels that our clients have been historically experiencing and provide cost benefits.

Corporate responsibility

EHS understand the important role it plays in doing business in West and Central Africa. Our commitment is long term and is aimed at **raising the standards within our Industry, through investing in training and awareness**.
